Overview

TimeBiller is a time and billing tracking program. Features:

- Multiple clients and projects tracking
- Expense tracking
- Define clients with associated projects, tasks, contacts, and rates
- Multiple rates for each client including fixed rate
- Display entries by day, week, month, or a custom period
- Optional duration granularity (minimum duration interval) and break time
- Time Entry Preview screen
- Handy entry copy feature for repetitive tasks for the rest of the week, to a specified date or end date
- Track billable, non billable, billed, and paid tasks
- Customizable HTML reporting
- Export data to CSV for further analysis
- Drop lists for efficient data entry
- Create entries using multiple timers
- Custom fields for time and expense entry
- Respective user interface design for tablets and phones

Using AnTimeBiller

Main Screen

The Action Bar on the top consists of time entry tab, expense entry tab, and action items.

The timer status bar at the bottom can display up to 4 timers depending on the device. Touch a running timer to display the context menu for options.

The main screen is divided into 2 panes.

Left Pane:

The date bar displays the date selection and the Today button. Touch on the date selection to change date.

Time entries (if any) for the current filter and date selection are listed.

- Swipe left or right to change period or date
- Touch and hold on an entry to display the context menu for more options

Right Pane:

The Entry Preview screen displays the details of the selected entry.

To help you use AnTimeBiller in the most efficient way, touch the Menu button and select Options to set various defaults and options on the first run.

To setup clients, touch the Menu button and select Setup clients.

Setup Clients

You must create a client structure before creating time entries. Client structure has the following properties:

- A project is associated to a client.
- A task is associated to a client or project.
- A contact is associated to a client.

To create a client structure:

1. Touch the Menu action item and select Setup clients.
2. To add a client, touch the Add Client action item.
3. Enter the name of the client and touch the OK button.
4. Select the client you want to add a project, task, contact, or rate.
5. Touch the Add Project/Task/Contact/Rate action item.
6. Enter the name of the item and touch the OK button, or enter the desired information and touch the OK button.
7. The new item is displayed under the appropriate folder.
8. Repeat step 2 to 7 until you are done.
9. Touch the Back key to return to the main screen.

To create a task for a project:

1. Select the project you want to add a task.
2. Touch the New task button.
3. Enter the task name and touch the OK button.

You can setup multiple rates for each client.

Rate Types

Type	Special Comment
 Normal rate	Standard rate per hour
 Overtime rate	
 Weekend rate	
 Fixed rate	Charge per use
 Discount rate	

Note: Any modification of rates will change the rates used in existing time entries.

To edit/delete a client/project/task/contact/rate, touch and hold on the item to display the context menu for the desired option. Touch a task/contact/rate will also open the item edit screen.

You can import a list from a text file.

To import a text file:

1. Create a text file with each item on its own line.
2. Touch and hold on the client/project/task/contact and select Import.
3. Select the source file to import.
4. Touch the Import button to confirm.
5. The imported items are displayed.

Create an Entry

The screenshot displays the 'AnTimeBiller' mobile application interface for creating a new time entry. The form is organized as follows:

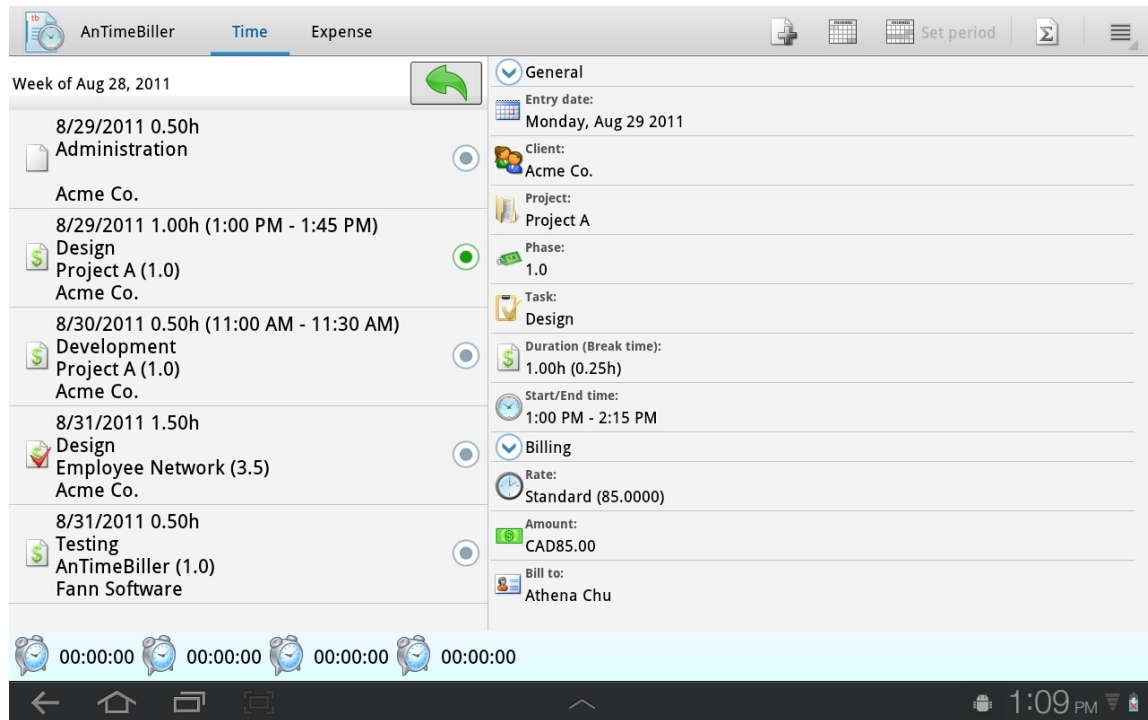

- Date:** Tuesday, Aug 30 2011
- Client:** Acme Co.
- Project:** Project A
- Phase:** 1.0
- Task:** Development
- Duration:** 00 : 30 (with a 'Set Time' button)
- Status:** Billable
- Bill to:** Athena Chu
- Custom paid date:** (empty field)

The top of the screen features the 'AnTimeBiller' logo and 'Save' and 'Cancel' buttons. The bottom of the screen shows a standard Android navigation bar with icons for back, home, recent apps, and search, along with the time 3:37 PM and battery status.

1. Touch the time entry tab, touch the New action item.
2. Select a date for the entry. The default is today.
3. Select a client.
4. (Optional) Select a project.
5. (Optional) Enter a phase.
6. Select a task.
7. (Optional) Enter/Select a duration in hours:minutes, or touch the Set time button to enter a start, break, and/or end time.
8. (Optional) Select a status.
9. (Optional) Select a contact for bill to.
10. (Optional for paid entry only) Touch the Set button to enter a custom paid date.
11. (Optional) Select a rate or select (Custom Rate) to enter a custom rate.
12. (Optional) Enter a currency.
13. (Optional) Enter a description for each custom field.
14. (Optional) Enter the desired note information.
15. Touch the Save button to save the entry, or the Cancel button to discard.

Create an Entry Using a Timer

This feature is most useful if you require accurate duration information.

1. Touch the  Timer icon to start a timer.
2. (Optional) Select a client.
3. (Optional) Select a project.
4. (Optional) Enter a phase.
5. (Optional) Select a task.
6. (Optional) Check the check box on Start time to enter a start time.
7. Touch the Start button to return to the main screen.
8. (Optional) Touch the running timer and select Pause to pause for breaks, and uncheck Pause to resume recording.
9. (Optional) Touch the running timer and select Edit note to enter note information.
10. Touch the running timer and select Complete when finished to create the time entry, or select Cancel to cancel the recording.
11. Select/Enter the appropriate information in the entry screen.
12. Touch the Save button to save the entry.

Note:

- The device can be turned off or you can run other applications during recording, the timer will calculate the elapsed time when you turn the device back on or upon return.
- Do not exit AnTimeBiller while the timer is running, otherwise all timer information will be lost. To set timer option for warning before exit, touch the Menu action item and select Options→Timer.

Create an Expense Entry

General Expense

The screenshot displays the 'General Expense' form in the AnTimeBiller application. The form is organized as follows:

- Date:** A date picker showing 'Friday, Sep 2 2011'.
- Description:** A text input field.
- Client:** A dropdown menu with 'Acme Co.' selected.
- Project:** A dropdown menu with 'Project A' selected, accompanied by an unchecked checkbox.
- Status:** A dropdown menu with 'Billable' selected.
- Category:** A text input field.
- Currency:** A dropdown menu with 'CAD' selected.
- Amount:** A text input field.
- Receipt supplied:** An unchecked checkbox.
- Bill to:** A dropdown menu with 'Athena Chu' selected.
- Custom paid date:** A 'Set' button.

The top of the screen shows the application title 'AnTimeBiller' and 'Save | Cancel' buttons. The bottom of the screen shows a navigation bar with icons for back, home, and other functions, along with the time '10:51 AM' and battery status.

1. Touch the expense entry tab, touch the New general action item.
2. Select a date for the entry. The default is today.
3. Enter a description.
4. Select a client.
5. (Optional) Check the check box under Project to select a project.
6. (Optional) Select a status.
7. (Optional) Enter a category.
8. (Optional) Enter a currency.
9. (Optional) Enter an amount.
10. (Optional) Check the Receipt supplied check box.
11. (Optional) Select a contact for bill to.
12. (Optional for paid entry only) Touch the Set button to enter a custom paid date.
13. (Optional) Enter a description for each custom field.
14. (Optional) Enter the desired note information.
15. Touch the Save button to save the entry, or the Cancel button to discard.

Mileage Expense

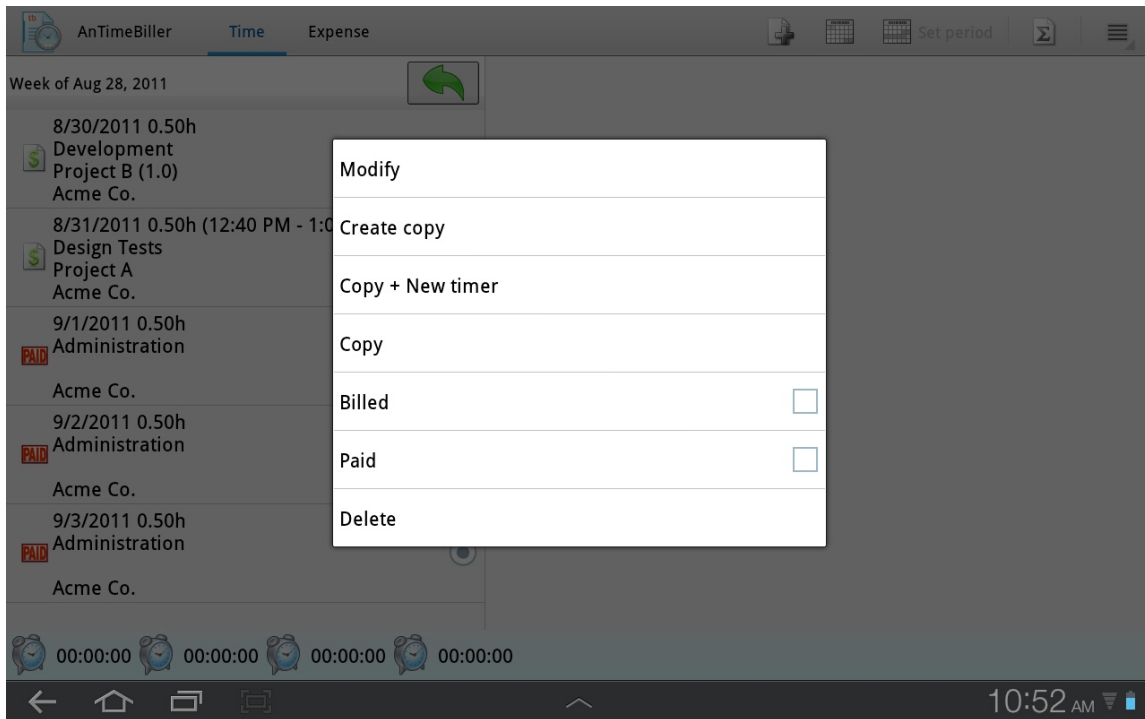

The screenshot shows the AnTimeBiller mobile application interface for entering a Mileage Expense. The form includes the following fields and options:

- Date:** A date picker showing "Friday, Sep 2 2011".
- Description:** A text input field.
- Client:** A dropdown menu showing "Acme Co.".
- Project:** A checkbox and a dropdown menu showing "Project A".
- Status:** A dropdown menu showing "Billable".
- Start odometer:** A text input field showing "0".
- End odometer:** A text input field showing "0".
- Distance:** A text input field showing "0".
- Currency:** A dropdown menu showing "CAD".
- Rate:** A text input field.
- Receipt supplied:** A checkbox.
- Bill to:** A dropdown menu showing "Athena Chu".
- Custom paid date:** A "Set" button.

The application title bar shows "AnTimeBiller" and buttons for "Save" and "Cancel". The bottom status bar shows navigation icons and the time "10:52 AM".

1. Touch the expense entry tab, touch the New mileage action item.
2. Select a date for the entry. The default is today.
3. Enter a description.
4. Select a client.
5. (Optional) Check the check box under Project to select a project.
6. (Optional) Select a status.
7. (Optional) Enter the odometer readings or distance.
8. (Optional) Enter a currency.
9. (Optional) Enter a rate.
10. (Optional) Check the Receipt supplied check box.
11. (Optional) Select a contact for bill to.
12. (Optional for paid entry only) Touch the Set button to enter a custom paid date.
13. (Optional) Enter a description for each custom field.
14. (Optional) Enter the desired note information.
15. Touch the Save button to save the entry, or the Cancel button to discard.

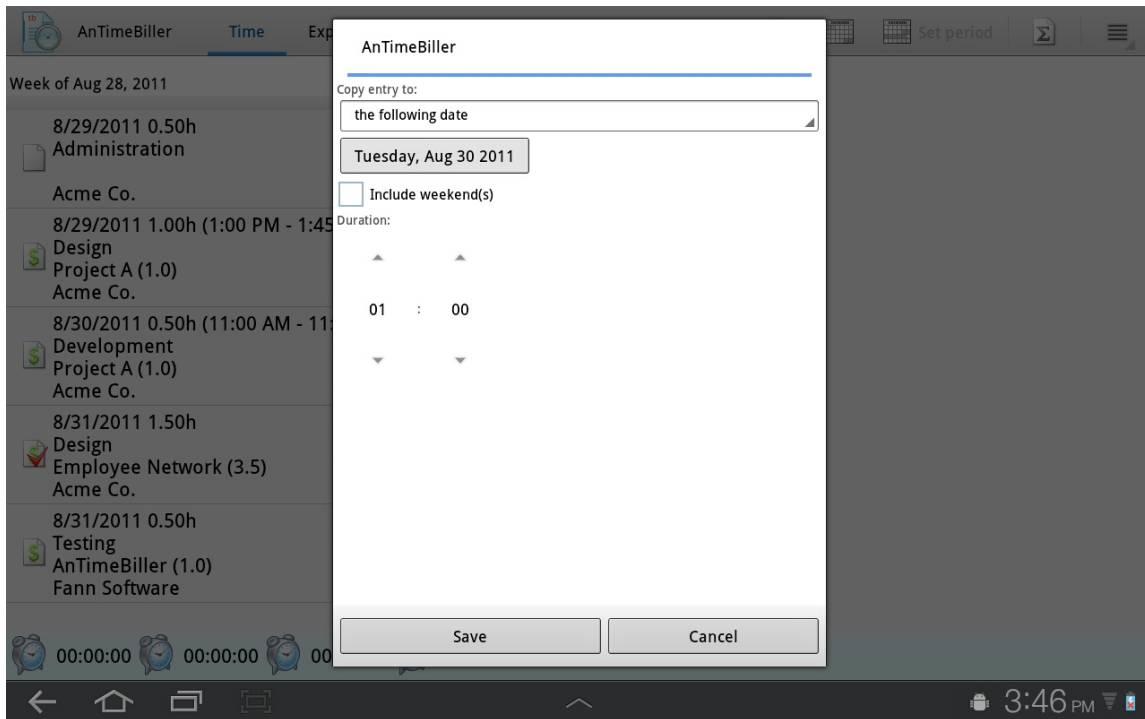

Modify an Entry

Touch and hold on the entry to display the context menu.

- **Modify** – to edit the entry
- **Create copy** – to create a copy of the entry
- **Copy + New timer** – to create a new timer based on the entry
- **Copy** – to duplicate the entry for the rest of the week, to a specified date or end date
- **Billed** – to check/uncheck the entry as billable/billed
- **Paid** – to check/uncheck the entry as paid/unpaid
- **Delete** – to delete the entry

Copy an Entry

To duplicate repetitive entries for the rest of the week, to a specified date or end date, and modify the duration for the copies:

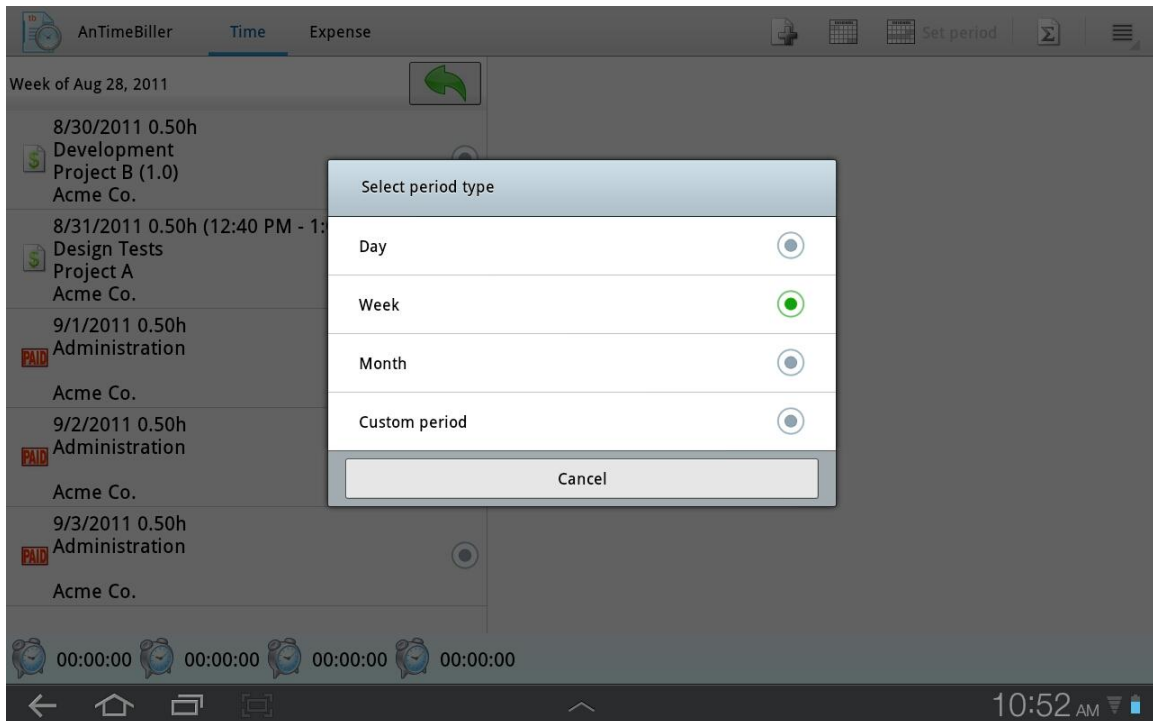

1. Touch and hold on the entry.
2. Select Copy.
3. Select the desired option(s).
4. Change the duration if desired.
5. Touch the Save button.

Customize Main View

There are 2 main components that can be customized on main view:

- Date range
- Data filter

Date Range

Touch the Period type action item and select to display data by day, week, month or a custom period.

To change a custom period, touch the Set period action item.

Data Filter

Client: Acme Co. Currency: (All)

Project: (All) Rate type: (All)

Phase: (All) Special Note: (All)

Task: (All) Custom 2: (All)

Bill to: (All) Custom 3: (All)

Unpaid Paid

Billed Non billable

Use filter to limit the amount of displayed data:

1. Touch the Menu action item and select Filter→Set filter.
2. Select the desired criteria.
3. Touch the OK button.

Options

Touch the Menu action item and select Options to change options.

General – View

6. In the Criteria screen, select the criteria to report on.
7. Touch the OK button to continue.
8. Enter a filename for the report output. It will be saved as a HTML file.
9. Touch the OK button to continue.
10. Touch the Preview button to display the report, or the Send email button to send the report as an attachment.

Mark Time and Expense Entries

To mark time entries:

1. Touch the time entry tab, touch the Menu action item and select Data→Mark billed entries/Mark paid entries.
2. Select the desired criteria.

The screenshot shows the AnTimeBiller application interface. The title bar includes the app name and 'OK' and 'Cancel' buttons. The form contains the following fields and options:

- Start date: Sunday, Aug 28 2011
- End date: Saturday, Sep 3 2011
- Client: (All)
- Project: (All)
- Phase: (All)
- Task: (All)
- Bill to: (All)
- Currency: (All)
- Rate type: (All)
- Special Note: (All)
- Custom 2: (All)
- Custom 3: (All)
- Unpaid: (checked)
- Paid:
- Billed:
- Non billable:

The bottom of the screen shows a navigation bar with icons for back, home, and other functions, along with a status bar displaying the time 4:34 PM and battery level.

3. Touch the OK button.
4. (Optional for Mark paid entries only) Select a desired paid date.
5. (Optional for Mark paid entries only) Touch the OK button.

To mark expense entries:

1. Touch the expense entry tab, touch the Menu action item and select Data→Mark billed entries/Mark paid entries.
2. Select the desired criteria.
3. Touch the OK button.
4. (Optional for Mark paid entries only) Select a desired paid date.
5. (Optional for Mark paid entries only) Touch the OK button.

Note: Only billable entries can be billed or paid.

A quick way to mark or unmark a single entry is to use the context menu by touch and hold on the entry.

Export Data

AnTimeBiller supports Comma Separated Values (CSV) format.

To export time entries:

1. Touch the time entry tab, touch the Menu action item and select Data→Export CSV.
2. Select the desired criteria.
3. Touch the OK button to continue.
4. Enter a filename.
5. Touch the OK button to continue.
6. Touch the OK button, or the Send email button to send the file as an attachment.

To export expense entries:

1. Touch the expense entry tab, touch the Menu action item and select Data→Export CSV.
2. Select the desired criteria.
3. Touch the OK button to continue.
4. Enter a filename.
5. Touch the OK button to continue.
6. Touch the OK button, or the Send email button to send the file as an attachment.

Backup and Restore

It is important to backup your data regularly. Backup will store all time entries, expense entries, client structures, rates, report definitions, and preferences to a file. It can be used if your device failed or a hard-reset is required.

To create a backup file:

1. Touch the time entry tab, touch the Menu action item and select Data→Create backup.
2. Enter a filename.
3. Touch the OK button.

To restore from a backup:

1. Touch the time entry tab, touch the Menu action item and select Data→Restore backup.
2. Select a backup file to restore.

Set Defaults

Touch the Menu action item and select Options→Entry defaults to set default values for new entries.

Edit Drop Lists

1. Touch the time entry tab, touch the Menu action item and select Data→Manage drop lists.
2. Select the list type.
3. To remove an item, check the check box and touch the Delete button.
4. To remove all items, touch the Delete all button.

Archive Data

1. (Recommended) Create a backup file.
2. Touch the time entry tab, touch the Menu action item and select Data→Create archive.
3. Select a start and end date.
4. (Optional) Check "Delete when archived" to delete the data once it is archived.
5. Touch the OK button to continue.
6. Enter a filename. A descriptive name is recommended.
7. Touch the OK button.

To reload archived data back into AnTimeBiller, touch the Menu action item and select Data→Load archive from the time entry tab, select the desired tbax file.

Note: Use TimeBiller Archive Viewer (available at Product Support page) to view archived time and expense entries on desktop PC.

Custom Fields

There are 3 custom fields for adding data to each time entry and 2 custom fields for adding data to each expense entry.

To change the default descriptions:

1. Touch the Menu action item and select Options→Custom fields.
2. Select the desired field to edit.
3. Enter a description.
4. Touch the OK button.
